REPORT OF THE PROVINCIAL AUDITOR ON THE CONSOLIDATED FUND FINANCIAL STATEMENTS IN THE PUBLIC ACCOUNTS OF MANITOBA

I report that the Consolidated Fund financial statements included in the Public Accounts of Manitoba have been examined under my direction for the fiscal year ended March 31, 1985. The examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as were considered necessary in the circumstances.

The subtotal on the Summary of Revenue and Expenditure statement for the fiscal year ended March 31, 1985 stated as Excess of Expenditure over Revenue of $482,533,775 (1984 – $428,949,282) reflects the excess of expenditure over revenue in accordance with the stated accounting policies. It is this figure which is included in the Excess of Liabilities over Recorded Assets statement to reflect the changes in the Operating Fund Assets and Liabilities from one year to the next. The information which follows these figures in the Summary of Revenue and Expenditure statement provides only limited information pertaining to expenditure related to capital assets; further information is required to appreciate the full effects of expenditure related to capital assets on the Province's operations.

In my opinion, the Consolidated Fund financial statements, together with the supporting data and explanatory notes in the Public Accounts and the information provided in the preceding paragraph, fairly present information in accordance with the accounting policies of the Government stated in the Public Accounts on a basis consistent with that of the preceding year.

F. H. Jackson, C.A.,
Provincial Auditor.

GOVERNMENT OF THE PROVINCE OF MANITOBA

ACCOUNTING POLICIES—STATEMENT AND APPLICATION

STATEMENT

The basic accounting policies followed by the Government of Manitoba, which have been applied in the preparation of these Public Accounts, are summarized below. These policies have been developed and are applied in accord with the provisions of the Financial Administration Act, which is Chapter F55 of The Continuing Consolidation of The Statutes of Manitoba. Further information regarding their application to the financial transactions of the Government is provided in the section entitled "Application".

I. THE ACCOUNTING ENTITY

The financial transactions of the Government are recorded in "The Consolidated Fund". The activities of The Consolidated Fund are divided into the "Operating Fund", which records the operational activities of the Government, and the "Trust Fund", which records the trust administration function.

Financial statements prepared for the "Operating Fund" report amounts received as Government revenue, expenditure on Government programs, the lending and investment of Government funds and the borrowing and repayment of debt. Financial statements prepared for the "Trust Fund" report the activities in the various categories of trust money administered by the Government.

The financial operations of the provincial Crown Corporations, Agencies, Boards and Commissions are reflected in The Consolidated Fund to the extent that:

1) They receive money from or pay money to the Government.

2) Any deficits they incur are adjusted against the amounts loaned, advanced or invested in them by the Government.

II. CASH BASIS OF ACCOUNTING

A REVENUE

i) Revenue, with the exception of provincially collected tax revenue, shared-cost receipts and Canada-Manitoba Fiscal Arrangements, is ordinarily recorded on a cash basis. Accordingly, all money received by Departments on or before March 31 is included in the revenue for the fiscal year provided that it is deposited with the Minister of Finance prior to the fifteenth day of April, immediately following.

ii) Provincially collected taxes received by the Government in April with respect to collections made by Agents during March are recorded as revenue for the fiscal year just ended. These amounts are recorded as an account receivable from these Agents as at March 31.

iii) Money received pursuant to shared-cost agreements and arrangements that extend over more than one fiscal year is recorded as revenue in each fiscal year in proportion to the related expenditure made in the respective year. Accordingly, the uncollected balance of the shared-cost claims related to the fiscal year being reported will be included in the revenue of that fiscal year.

iv) Revenue and expenditure are recorded in gross amounts (referred to as the Gross Accounting Concept) with the exception of the Municipal Share of Individual and Corporation Income Taxes, which is paid to Municipalities in accordance with the Provincial-Municipal Tax Sharing Act and is not recorded as revenue by the Government.

v) Recoveries from Crown Corporations and Government Agencies of the debt servicing costs on self-supporting debt and certain investment income are recorded as a reduction of Public Debt expenditure.

B EXPENDITURE

Expenditure is recorded on a cash basis, modified to allow an additional forty-five days after the end of the fiscal year for the processing of payments pertaining to that fiscal year. Salaries and wages, however, are charged to the fiscal year in which they are paid. As well, an accrual is made to March 31st for interest payable on bonds, debentures and other long-term debt.

III. ASSETS AND LIABILITIES

1. The assets and liabilities reported in the financial statements are financial claims consisting of assets which are claims by the Government on other parties and liabilities which are claims by other parties on the Government.
2. Expenditure for the acquisition and/or construction of physical assets together with inventories and other deferred expenditures is not considered to differ from any other service to the Public and accordingly is treated as an expenditure of the year in which the expenditure is made. Since such expenditure does not represent financial claims on others, it is not reported as an asset at fiscal year-end. This does not negate the fact that the Government has substantial holdings of physical assets such as buildings, highways, education and health facilities, which may tend to appreciate in value over time.
3. Amounts loaned, advanced or invested in Crown Corporations, Agencies, Boards and Commissions are subject to annual revaluation. An Allowance For Losses On Realization Of Assets is provided and is adjusted annually to reflect the estimated change in value of these assets.

4. Bonds, debentures and other long-term debt are recorded as liabilities at the par value of such securities and any discount, premium or commission expense is treated as an expenditure of the year in which it is incurred. For foreign issues, the par value is converted to Canadian Funds at the exchange rate in effect at the date of issue, or the actual conversion rate of the proceeds. Sinking funds are maintained in accordance with the legal requirements of the debt instruments and the Financial Administration Act.

IV. GUARANTEED AND INDIRECT LIABILITIES

In addition to having direct debt, the Government also acts as a guarantor of securities issued by various other entities. The debt guaranteed pertaining to Crown Corporations, Agencies, Boards and Commissions is largely self-supporting. Other guaranteed debt for schools, universities and hospitals is serviced in whole or in part from appropriations of the Consolidated Fund. Legislation requires the maintenance of Sinking Funds for the retirement of the debt of most Crown Corporations, Agencies, Boards and Commissions. These Sinking Funds are maintained by the Minister of Finance through annual contributions from the Crown Corporation, Agency, Board or Commission to whom the debt applies and are held in the Trust Fund.

Other Contingent Liabilities that result from other financial activities of the Government are also reported annually in the Public Accounts.

APPLICATION

The following outlines the application of these accounting policies to the financial transactions of the Government:

I. REVENUE

The revenue of the fiscal year is generally the amount received during the fiscal year. Exceptions are made for provincially collected taxes, shared-cost receipts, and revenue from the Government of Canada, which are subject to the following additional practices:

a) Provincially collected taxes received by the Government in April with respect to collections made by Agents during March are recorded as revenue for the fiscal year just ended. These amounts are recorded as an account receivable from these Agents as at March 31.

b) Where, pursuant to an agreement or arrangement, money is received in advance relating to projects for which expenditure is to be made in more than one fiscal year, the money is deemed to have been received in each fiscal year in proportion to the related expenditure made in the respective fiscal year. A statement of the amounts not taken into Revenue (Deferred Revenue) is included in Section 4 of the Public Accounts.

c) It is the practice to show the uncollected balance of claims related to shared-cost agreements with the Government of Canada as an accounts receivable at March 31. This accrual is made in order that the revenue from this source is recorded in proportion to the related expenditure incurred in the fiscal year.

d) An additional practice is in effect regarding revenue from the Government of Canada under the Canada-Manitoba Fiscal Arrangements. The accounts are kept open until June 30 to reflect any adjustments to this revenue for the fiscal year just ended that the Government of Manitoba may become aware of before that date. Since this is a major source of Government revenue, this practice is considered necessary to show the financial condition of the Government in the most accurate manner possible.

II. EXPENDITURE

The expenditure of the fiscal year is essentially the payments made from appropriations during the fiscal year and for a subsequent forty-five day period after March 31. The accounts remain open during this period to allow processing time for expenditure pertaining to the fiscal year just ended.

An exception to this procedure is made for the interest cost on the long-term debt of the Government. In this regard, an accrual is made to March 31st for the interest payable on bonds, debentures and other long-term debt. In the case of foreign issues, the accrual is based on the exchange rate that was recorded at the time of debt issue. There is no provision made for the fluctuation of foreign currencies between the debt issue dates and the interest payment dates.

The Allowance For Losses On Realization Of Assets is not charged to an appropriation. This amount, which represents an estimate of the change in recoverable value of the loans, advances and investments in Crown Corporations, Agencies, Boards and Commissions during the fiscal year, is reported on the statement that discloses the Excess of Liabilities Over Recorded Assets. When a legal realization of the loss occurs, the final write off of the loan, advance or investment will be disclosed after the operating results on the Summary of Revenue and Expenditure along with details as to the year in which the allowance was recorded.

Payments made by the Government for the purposes of acquiring property or physical assets are classified in a separate category of expenditure called "Expenditures Related to Capital Assets" and are defined as follows:

a) Expenditures for property of all kinds, both real property and chattels, purchased or self-constructed for use by Government that are deemed to have an economic life in excess of one year.

b) Expenditures for projects or activities which entail major renewals, modification or modernization by own labour forces or on behalf of the Government. The expenditures should significantly prolong the expected economic life of the asset.

c) The principal portion of a debt repayment when the debt was incurred to acquire a physical asset and the acquisition cost of the physical asset was not previously reflected in the Consolidated Fund as an expenditure.

d) Grants or assistance payments to municipalities, school divisions, external agencies, commercial organizations and private individuals which are known to be for the purchase, construction or improvement of physical assets.

III. ASSETS AND LIABILITIES

The statement of the Operating Fund Assets and Liabilities is prepared in accordance with the following practices:

1. TEMPORARY INVESTMENTS

This category includes securities held as a result of the investment of the Government's cash flow and is generally comprised of money market instruments such as term deposits and negotiable securities which are intended to be held for a short term. All investments are shown at cost.

2. ADVANCES AND OTHER RECEIVABLES

Advances to Crown Corporations, Agencies, Boards and Commissions, which are generally interest bearing, are shown under this heading as well as financial claims on the Government of Canada and other parties. Amounts due within one year of the statement date are shown as "Current Amounts" and all others are classified as "Not Current". Balances under the advances category are not separated into a current portion and non-current portion even though repayment schedules may exist for some of these items. The Sinking Funds provided by Crown Corporations, Agencies, Boards and Commissions for repayment of the debt issued to fund advances to these entities are deducted from the advances.

Certain of the Crown Corporations are charged with a responsibility for administering Government programs for which they receive funds from Government appropriations. These funds are applied by the Corporation towards the program administration cost, including, in some cases, a portion of the interest they are charged on these advances. The principal repayment and/or interest charges for certain of the advances are dependent on total or partial funding from future appropriations of the Operating Fund.

3. LONG-TERM INVESTMENTS

The majority of the Province's long-term investments consist of shares and debentures of Crown Corporations. These investments are carried at cost which does not reflect the realizable value of the investments. Any decrease in the estimated realizable value is provided for in the Allowance For Losses On Realization Of Assets, which is described in the next paragraph.

4. ALLOWANCE FOR LOSSES ON REALIZATION OF ASSETS

An allowance is provided for decreases in the value of loans, advances and investments and is adjusted annually for changes that may occur in the estimated realizable value of these assets. The allowance is intended to provide for the accumulated deficits of the Crown Corporations, Agencies, Boards and Commissions in which the Government has invested money by way of loans, advances or purchases of shares. The valuation is based on the most recent audited financial statements applicable to the fiscal year being reported that are available at the time of publication of the Public Accounts. If the Government has more than one type of investment in an organization (eg. common shares, preferred shares and debentures), the accumulated deficit is assigned against the investments in order of priority on liquidation.

5. EXCESS OF LIABILITIES OVER RECORDED ASSETS AND OTHER OBLIGATIONS HELD BY THE PROVINCE CONSIDERED TO BE SIMILAR IN NATURE:

a) SERIAL DEBENTURES OF SCHOOL DIVISIONS AND DISTRICTS, TRANSFERRED FROM THE MANITOBA SCHOOL CAPITAL FINANCING AUTHORITY

The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, were assumed by the Government. The investments transferred to the Government consisted of serial debentures issued by school divisions and districts for which the Government is primarily responsible for repayment. Accordingly, an annual appropriation is made in the Consolidated Fund to cover the principal and interest costs of these debentures.

The cash drawn from this appropriation for the required annual principal repayments is transferred to the Province's sinking fund where it will be used for repayment of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

b) SECURITIES RECEIVED FROM THE SALE OF LAND AND BUILDINGS TO MANITOBA PROPERTIES INC.

Land and buildings, which were valued at $532,995,036 were sold to two crown corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. on August 1, 1984. Under the purchase arrangement, the properties were resold to Manitoba Properties Inc. at the same price. In addition to cash, the purchase consideration received from the sale consisted of common shares of Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. and a promissory note from Manitoba Properties Inc.

The recorded value of the common shares has been reduced by a special valuation account which was established from a portion of the sale proceeds and is used to reflect the diminution of the value of these shares as the result of dividends paid to preferred shareholders of Manitoba Properties Inc. Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. jointly own all the common shares of Manitoba Properties Inc. and the value of their equity in these shares decreases annually with the payment of dividends by the latter to preferred shareholders.

The interest payable to the Province on the promissory note is funded from the annual rental payments made by the Province to Manitoba Properties Inc. and is therefore dependant on future appropriations of the Consolidated Fund.

c) **EXCESS OF LIABILITIES OVER RECORDED ASSETS**
This account and the two accounts previously described represent the difference between liabilities, which are financial claims owing by the Government, and recorded assets, which are financial claims receivable by the Government. Since the physical assets and materials inventories of the Government do not constitute a financial claim receivable by the Government, they are not considered in the determination of this balance.

6. **AMOUNT OWING TO THE TRUST FUND**
A large portion of this money has been deposited with the Minister of Finance in accordance with the terms of the legislation regulating the management of sinking funds and surplus cash of Crown Corporations, Agencies, Boards and Commissions, but is not specifically invested. Such deposits are accorded a market rate of interest.

7. **BANK OVERDRAFT AND PROMISSORY NOTES**
This category represents the net overdraft in Government bank accounts adjusted for cheques issued prior to and not presented for payment at March 31 and for cash in transit. Short-term promissory notes are issued in lieu of increasing bank overdraft or liquidating investments to accommodate fluctuations in the cash flow cycle and are therefore considered together with the bank overdraft. Cheques issued subsequent to March 31 but chargeable to the fiscal year just ended are described in the next category.

8. **ACCOUNTS PAYABLE, ACCRUED CHARGES AND FUNDS SUBJECT TO CALL**
Cheques issued during the forty-five day period after March 31, in payment for goods and services pertaining to the fiscal year just ended are shown as accounts payable rather than as outstanding cheques.

Accrued charges represent the accrual of interest on provincial securities

Funds subject to call consist in part of money received from the Government of Canada that will not be taken into revenue until earned. This was earlier described as Deferred Revenue in paragraph 1b). As well, this category includes the liability for uninvested cash belonging to the Provincial Sinking Fund. This cash is designated as part of the Provincial Sinking Fund and must be kept available for investment.

9. **BONDS, DEBENTURES AND OTHER LONG-TERM DEBT**
This category includes bonds, debentures, secured loans from the Government of Canada, treasury bills and notes. Securities issued in Canadian Funds are recorded at par value. Securities issued in foreign funds are recorded at the Canadian Dollar equivalent of the par value based on the actual conversion of the proceeds or at the exchange rate in effect at the date of issue if conversion does not take place at issue date. Securities payable in foreign funds issued for the purpose of refunding other issues payable in the same currency are recorded at the Canadian Dollar equivalent of the par value at the date of issue.

The Government is required, by legislation, to determine the Canadian Dollar equivalent of provincial securities issued in foreign currencies or units of monetary value at March 31st of each year. The amount determined must be published in the Public Accounts as information regarding the current valuation of this foreign debt. This statement is included in Section 3 of the Public Accounts.

10. **SINKING FUNDS PROVIDED**
Sinking Funds are maintained in accordance with the legal requirements of the debt instruments and the Financial Administration Act. Money is allocated annually to these sinking funds on the following basis:

a) A sum equal to 3% of the aggregate amount of general purpose debt, in Canadian Dollars, outstanding at the end of the preceding fiscal year; and

b) All earnings derived from investing the sinking fund.

In addition, principal repayments of advances which are funded by the issue of provincial securities are deposited to the sinking fund provided that the principal repayments are made prior to the maturity date of such securities.

The total shown for sinking funds also includes sinking fund money provided by Crown Corporations, Agencies, Boards and Commissions in respect to debt incurred on their behalf by the Government.

11. **DEBENTURES ISSUED UNDER FINANCIAL ASSISTANCE AGREEMENTS**
Bonds, debentures and other long-term debt include debentures issued under agreements with the Credit Union Stabilization Fund and Les Fonds de Securite des Caisses Populaires whereby these organizations received advances in the form of provincial debentures which are required to be cancelled at maturity. The purpose of this arrangement was to provide for financial assistance to the aforementioned entities during the term of the debentures consistent with the interest payable on these debentures.

IV. TRUST FUNDS

The Trust Fund is divided into two primary divisions, Administered Trusts and Custodial Trusts. Those trusts where the Government has the responsibility for the administration and for investment of the trust are considered Administered Trusts. Those trusts where the Government responsibility is custodial in nature and there is little or no administration responsibility are considered Custodial Trusts. Generally, the responsibility for investment of a Custodial Trust is that of the depositor. A statement of Assets and Liabilities for the Trust Fund is included in the Public Accounts showing the assets and liabilities for Administered Trusts. Details of Custodial accounts are set out in a note to the statement of Assets and Liabilities.

Administered Trusts are divided into five categories:

1. Sinking Funds—This category includes sinking fund contributions deposited with the Minister of Finance by Crown Corporations, Agencies, Boards and Commissions in respect of their direct debt.
2. Funds on Deposit For Investment—Funds surplus to the immediate cash requirement of Crown Corporations, Agencies, Boards and Commissions are deposited for investment with the Minister of Finance. Although certain of these deposits are covered by specific investments in the Trust Fund, the majority of these funds are invested with the Minister of Finance and interest is paid at market rates in accordance with the term of the investment.
3. Banking Facility Accounts—These accounts are operated for those Crown Corporations, Agencies, Boards and Commissions who bank with the Minister of Finance.
4. Operating Trusts—Certain trusts are established where legislation or agreements require receipts and related expenditure to be kept separate from Government revenue and expenditure. These "designated trusts" may, in some cases, be used for programs similar to those operated from appropriated funds but are kept separate because a trust requirement has been established. A separate Statement of Receipts, Payments and Transfers is prepared for each of these operating trusts and is published in the Trust Fund section of the Public Accounts.
5. Miscellaneous Trusts—This category contains trust accounts resulting from the sundry deposit of cash and/or securities with the Government.

V. CHANGES IN FINANCIAL POSITION

A statement presenting the changes in the Government's financial position during the fiscal year is included in Section 1 of the Public Accounts. For purposes of this statement, working capital is defined to include the following:

a) Cash

b) Temporary Investments

c) Current portion of advances and other receivables

Minus

d) Amounts owing to the Trust Fund

e) Bank overdraft and promissory notes

f) Accounts payable, accrued charges and funds subject to call

VI. CHANGES IN ACCOUNTING POLICY

Section 10 of the Financial Administration Act requires a statement of any change in the accounting policies of the Government from those followed in the preceding fiscal year. There were no changes in accounting policies during the fiscal year ended March 31, 1985.

NOTE 1: On August 1, 1984, the Province sold land and buildings, which were valued at $532,995,036, to two crown corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. Under the purchase arrangement, the properties were resold to Manitoba Properties Inc. at the same price. The Province received the following consideration for the transaction:

104,633,448 common shares of Manitoba Properties Leasing Inc.	$104,633,448

	$532,995,036
Less: Special Valuation Account	209,246,896
	$323,748,140

On resale of the assets to Manitoba Properties Inc., the two crown corporations each received 10,000 common shares of Manitoba Properties Inc., which were valued at a total of $209,266,896. The resale agreement stipulated that Manitoba Properties Inc. would record the issue of these shares in its share capital account at a value of $20,000 and that the balance of $209,246,896 would be designated and accounted for as contributed surplus. This contributed surplus was subsequently transferred to retained earnings and is available for the payment of annual dividends to the preferred shareholders of Manitoba Properties Inc. Payment of dividends from retained earnings has the effect of reducing the value of the Manitoba Properties Inc. shares owned by Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. and would have the collateral effect on the shares in these two corporations owned by the Province. As a result, the Province has allocated $209,246,896 of the sales proceeds to a special valuation account. This account is used to reflect the diminution of the value of the common shares of Manitoba Properties Leasing Inc. and of Manitoba Properties Management Inc., as the result of dividends paid to preferred shareholders of Manitoba Properties Inc.

NOTE 1: SERIAL DEBENTURES TRANSFERRED FROM THE MANITOBA SCHOOL CAPITAL FINANCING AUTHORITY

The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, were assumed by the Government. The investments transferred to the Government consisted of serial debentures issued by school divisions and districts for which the Government is primarily responsible for repayment. Accordingly, an annual appropriation is made in the Consolidated Fund to cover the principal and interest costs of these debentures.

The cash drawn from this appropriation for the required annual principal repayments is transferred to the Province's sinking fund where it will be used for repayment of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

	$128,997,631	–

NOTE 1: On August 1, 1984, the Province sold land and buildings, which were valued at $532,995,036, to two crown corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. Under the purchase arrangement, the properties were resold to Manitoba Properties Inc. at the same price. The Province received the following consideration for the transaction:

104,633,448 common shares of Manitoba Properties Leasing Inc.	$104,633,448
104,633,448 common shares of Manitoba Properties Management Inc.	104,633,448
Promissory note of Manitoba Properties Inc. due July 31, 1994	128,977,631
Cash	194,750,509
	$532,995,036

On resale of the assets to Manitoba Properties Inc., the two crown corporations each received 10,000 common shares of Manitoba Properties Inc., which were valued at a total of $209,266,896. The resale agreement stipulated that Manitoba Properties Inc. would record the issue of these shares in its share capital account at a value of $20,000 and that the balance of $209,246,896 would be designated and accounted for as contributed surplus. This contributed surplus was subsequently transferred to retained earnings and is available for the payment of annual dividends to the preferred shareholders of Manitoba Properties Inc. Payment of dividends from retained earnings has the effect of reducing the value of the Manitoba Properties Inc. shares owned by Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. and would have the collateral effect on the shares in these two corporations owned by the Province. As a result, the Province has allocated $209,246,896 of the sales proceeds to a special valuation account. This account is used to reflect the diminution of the value of the common shares of Manitoba Properties Leasing Inc. and of Manitoba Properties Management Inc., as the result of dividends paid to preferred shareholders of Manitoba Properties Inc. For the fiscal year ended March 31, 1985, the values shown for the common shares of these two crown corporations have each been reduced by $4,595,290 and the valuation account by $9,190,580 to reflect dividends paid between the date of sale and December 31, 1984, which is the year end of the two corporations.

The Province has agreed to sell additional properties to Manitoba Properties Inc. with a settlement date of August 1, 1985. In this regard, approximately $78 million was received into trust at March 31, 1985 as the result of shares issued pursuant to the exercise of warrants by the preferred shareholders of Manitoba Properties Inc. Preferred shareholders exercised warrants for a total of $199,143,125 by the July 15, 1985 expiry date.

Under these agreements the Credit Union Stabilization Fund and Les Fonds de Securite des Caisses Populaires received advances of $25.0 million and $4.5 million respectively in the form of provincial debentures which are required to be cancelled at maturity in settlement of the advances. The debentures remain in the custody of the Province. The purpose of these transactions was to provide financial assistance to the aforementioned entities during the five year period July 7, 1982 to July 7, 1987. The annual assistance is charged to an appropriation voted for this purpose in the Department of Co-operative Development.

GOVERNMENT OF THE PROVINCE OF MANITOBA
OTHER LONG-TERM FINANCIAL ARRANGEMENTS
AS AT MARCH 31, 1985

1. HOSPITALS AND PERSONAL CARE HOMES

Hospitals and personal care homes have obtained financing for capital construction by issuing debentures, or arranging for mortgages or long-term bank loans. The Hospital Capital Financing Authority, which was established in 1972, approves the issue of all securities and assists in obtaining an orderly market for the sale of the securities to finance these capital expenditures. Although this indebtedness is not guaranteed by the Government, funds required for the payment of principal and interest related to the approved capital debt incurred for the construction and acquisition of facilities for the provision of insured services are included in the expenditure of the Manitoba Health Services Commission. The main source of Commission funds is from the Consolidated Fund of the Province of Manitoba.

As at March 31, 1985 the approved outstanding net capital debt of hospitals and personal care homes was $286,112,000 in Canadian dollars and $11,225,000 in United States dollars. This includes $18,577,000 National Housing Act mortgages which are subsidized by the Canada Mortgage and Housing Corporation.

In addition to the above net outstanding debt, lines of credit up to $55,675,000 have been approved to finance projects currently in process. On completion of these projects, the borrowings will be converted to long-term debt.

2. PUBLIC SCHOOLS

School Divisions have obtained long term financing for capital construction projects by issuing debentures. Although these debentures are not guaranteed by the Government, funds required for payment of the principal and interest related to the capital debt incurred for the construction and acquisition of facilities approved by the Public Schools Finance Board are mainly provided from the Consolidated Fund of the Province of Manitoba.

As at December 31, 1984, the outstanding long term debt of School Divisions, after deduction of accumulated sinking funds amounted to $218,516,890 of which $217,707,426 represented debt issued with Public Schools Finance Board approval and for which funds for debt servicing is provided from the Consolidated Fund, and $216,770,937 was held in investment accounts managed by the Minister of Finance.

3. MANITOBA HOUSING AND RENEWAL CORPORATION

The debt owing to the Canada Mortgage and Housing Corporation by Manitoba Housing and Renewal Corporation is $234,000,238. Although this indebtedness is not guaranteed by the Government, under the terms of the subsidy arrangements with Canada, payments are required from appropriations on account of partial servicing of this indebtedness.

Manitoba Housing and Renewal Corporation has guaranteed the repayment of mortgages in the amount of $5,692,716. The guarantee arose on the disposal of M.H.R.C.'s share of mortgages under the Mortgage Lending Program to the Co-operative Credit Society of Manitoba in the amount of $345,521 and $5,347,195 of mortgages guaranteed under the Mobile Home Program. Although a guarantee fee of 2% charged to each borrower is paid into the Mortgage Insurance Fund, any deficiency in the fund that resulted from default of the mortgages would have to be funded from M.H.R.C.'s appropriation.

4. MANITOBA WATER SERVICES BOARD

The debt owing to the Canada Mortgage and Housing Corporation by the Manitoba Water Services Board is $2,631,144. Although this indebtedness is not guaranteed by the Government, under the terms of the subsidy arrangements with Canada, payments are required from appropriations on account of partial servicing of this indebtedness.

5. CIVIL SERVICE SUPERANNUATION FUND AND TEACHERS' RETIREMENT ALLOWANCES FUND

The Government of Manitoba has a legislative requirement to pay, on a matching basis, one-half of the annual pension payments made through the Civil Service Superannuation Fund (with the exception of the share payable by Government Agencies for their employees) and the Teachers' Retirement Allowances Fund. The Government's contribution is therefore made on the basis of actual pension payments made by these Funds to retired employees. The amounts held in the Funds represent only the employees' obligation towards the total pension liability. The reserve accounts at December 31, 1984 were as follows:

	Reserves
Civil Service Superannuation Fund	$507,790,219
Teachers' Retirement Allowances Fund	359,072,204
Total	$866,862,423

The pensions are paid from funds provided by the Province of Manitoba from the Consolidated Fund. The unfunded present value of the pensions awarded as at March 31, 1985 was determined by the Board to amount to $5,702,103 (1984—$5,474,712).

7. FORWARD FOREIGN EXCHANGE CONTRACTS

The Province periodically enters into forward foreign exchange contracts with various banks for the purpose of purchasing or selling foreign currencies in its debt servicing program. At March 31, 1985 contracts covering U.S. $32,167,404 at an average conversion rate of $1.3818 Canadian had been entered into for settlement in the 1985-86 fiscal year.

Organizational changes made subsequent to the 1984/1985 Estimates are minor in nature and have not been reflected in the amounts presented for that fiscal year.

EXPLANATORY COMMENTS REGARDING REVENUE INCREASES (DECREASES)

As shown on the
Statement of Revenue
for the year ended March 31, 1985

The total revenue of $2,924.6 million for the year ended March 31, 1985 has increased from the previous fiscal year's total of $2,797.1 million by $127.5 million. The larger revenue increases and decreases consist of the following (in millions of dollars):

Larger Increases:	
Established Programs Cash Transfer	$ 38.4
Retail Sales Tax	35.2
Government of Canada-Shared Cost Receipts	19.9
Corporation Income Tax	18.7
Tobacco Tax	11.5
Liquor Control Commission	7.9
Motive Fuel Tax	3.4
Revenue Act, 1964, Part I	3.1
Attorney General—Land Title Fees	3.1
Levy for Health and Post Secondary Education	3.0
Reciprocal Taxation Agreement	2.8
Gasoline Tax	2.1
	$149.1
Larger Decreases:	
Mining Tax	$ 14.4
Mining Royalty Tax	10.0
Individual Income Tax	9.2
	$ 33.6
Others: Net Increase	$ 12.0
Net Increase	$127.5

The net increase of $38.4 million in revenue from Established Programs Cash Transfer and the increase of $35.2 million in Retail Sales Tax were the two largest factors contributing to this increase. Comments on these and other significant increases and decreases and on significant variances between actual and estimated are made in the following paragraphs.

ESTABLISHED PROGRAMS CASH TRANSFER FROM CANADA ($38.4 million increase)

The increase in the Established Programs Cash Transfer of $38.4 million from $366.9 million for the fiscal year ended March 31, 1984 to $405.3 million for the fiscal year ended March 31, 1985 is mainly the result of a $43.6 million increase in estimated entitlements from Canada based on the Established Programs financing formula. Partially offsetting this increase was a net decrease of $5.2 million in adjustments pertaining to previous years entitlements: $10.7 million was received in 1984/85 as compared to $15.9 million in 1983/84.

The actual revenue received of $405.3 million exceeded the Estimate by $36.2 million primarily as a result of the Federal Government's revision to the estimate of 1984 and 1985 income tax collections on which the tax component of the Established Programs financing formula is based and the receipt of $10.7 million for adjustments to previous years entitlements.

RETAIL SALES TAX ($35.2 million increase)

The increase in Retail Sales Tax of $35.2 million from $362.0 million for the fiscal year ended March 31, 1984 to $397.2 million for the fiscal year ended March 31, 1985 is mainly attributable to increased sales due to the economic recovery and to inflationary increases on the price of goods and services.

The actual revenue received of $397.2 million exceeded the Estimate by $6.3 million due to a greater than anticipated growth in economic recovery and price increases.

GOVERNMENT OF CANADA—SHARED COST RECEIPTS ($19.9 million increase)

The increase in Government of Canada Shared Cost Receipts of $19.9 million from $191.1 million for the fiscal year ended March 31, 1984 to $211.0 million for the fiscal year ended March 31, 1985 was the net result of several increases and decreases reflected in various shared-cost agreements.

The most significant increase in revenue was from the Canada Assistance Plan which is mainly attributable to an increased level of provincial expenditure in the social services programs. This resulted in an increase in revenue to the Department of Employment Services and Economic Security of $9.2 million and an increase in revenue to the Department of Community Services of $2.1 million.

Other major increases included $6.6 million to the Department of Education for the Skills Growth Fund as a result of an increased level of spending on certain post-secondary education capital projects and $2.4 million to the Department of Community Services for the Young Offenders Act which was implemented in the 1984/85 fiscal year.

These increases were partially offset by a decrease in revenue from the Enterprise Manitoba Agreement of $1.2 million to Business Development and Tourism and $1.7 million to Industry, Trade and Technology due to the termination of the agreement.

CORPORATION INCOME TAX ($18.7 million increase)

The increase in Corporation Income Tax Revenue of $18.7 million from $110.9 million for the fiscal year ended March 31, 1984 to $129.6 million for the fiscal year ended March 31, 1985 is mainly attributable to a $22.9 million increase in current year entitlements as determined by the Federal Government and a net increase of $7.0 million with respect to the Public Utilities Income Tax Transfer. Partially offsetting these increases was: a decrease in prior year adjustments of $9.8 million, only $1.8 million was received in 1984/85 as compared to $11.6 million in 1983/84; and a decrease of $1.5 million due to an increase in municipal tax sharing payments.

The 1984/85 revenue is net after transferring Provincial-Municipal Tax Sharing payments of $7.5 million.

TOBACCO TAX ($11.5 million increase)

The increase in Tobacco Tax revenue of $11.5 million from $54.8 million for the fiscal year ended March 31, 1984 to $66.3 million for the fiscal year ended March 31, 1985 is mainly the result of the increase in the tax rate from 2.1¢ per cigarette to 2.6¢ per cigarette with a corresponding increase for other fine cut tobacco products effective May 28, 1984.

LIQUOR CONTROL COMMISSION ($7.9 million increase)

The increase in Liquor Control Commission revenue of $7.9 million from $128.1 million for the fiscal year ended March 31, 1984 to $136.0 million for the fiscal year ended March 31,1985 is mainly attributable to price increases of $7.0 million due to the annual indexing of Excise and Customs Taxes by the Federal Government and suppliers and volume increases of $0.9 million.

The actual revenue received of $136.0 million exceeded the Estimate by $6.0 million mainly as a result of higher than anticipated volume increases of $9.1 million, partially offset by lower than anticipated price increases of $5.1 million. In addition, Commission expenses were $1.1 million lower than estimated and other revenue was $0.9 million higher than expected which when combined with the volume and price changes resulted in an increase in net profit of $6.0 million.

MOTIVE FUEL TAX ($3.4 million increase)

The increase in Motive Fuel Tax revenue of $3.4 million from $42.1 million for the fiscal year ended March 31, 1984 to $45.5 million for the fiscal year ended March 31, 1985 was mainly attributable to an increase in the diesel fuel tax rate on locomotive railway use from 5.6¢ per litre to 7.1¢ per litre effective May 1, 1984 and a 7.3% increase in consumption of clear diesel.

The actual revenue received of $3.4 million was less than the Estimate by $2.1 million mainly as a result of higher than anticipated tax refunds to railways for motive fuel exported out of the Province in locomotive fuel tanks as provided for in the Motive Fuel Tax Act, Section 3(11.1).

REVENUE ACT, 1964, PART I ($3.1 million increase)

The increase in Revenue Act, 1964, Part 1 revenue of $3.1 million from $29.8 million for the fiscal year ended March 31, 1984 to $32.9 million for the fiscal year ended March 31, 1985 is mainly the result of an increase of approximately 8% to hydro rates effective April 1, 1984 and to an average increase of approximately 7% to natural gas rates which were made effective during the 1984/85 fiscal year.

ATTORNEY GENERAL—LAND TITLES FEES ($3.1 million increase)

The increase in revenue for Land Titles Fees of $3.1 million from $6.8 million for the fiscal year ended March 31, 1984 to $9.9 million for the fiscal year ended March 31, 1985 is mainly the result of a 50% increase to the tariff which came into effect in February, 1984.

The actual revenue received of $9.9 million exceeded the Estimate by $2.1 million also as a result of the increase to the tariff in February, 1984 which was not provided for in the Estimate.

LEVY FOR HEALTH AND POST SECONDARY EDUCATION ($3.0 million increase)

The increase in Levy for Health and Post-Secondary Education revenue of $3.0 million from $108.1 million for the fiscal year ended March 31, 1984 to $111.1 million for the fiscal year ended March 31, 1985 reflects a slight growth in the tax base of employers as a result of increased wages paid and/or employees hired.

RECIPROCAL TAXATION AGREEMENT ($2.8 million increase)

The increase in Reciprocal Taxation Agreement revenue of $2.8 million from $9.4 million for the fiscal year ended March 31, 1984 to $12.2 million for the fiscal year ended March 31, 1985 is mainly attributable to a $2.4 million increase in the Federal Government's estimate of the Province's entitlements for the sales tax component of the Agreement.

The actual revenue of $12.2 million exceeded the Estimate by $2.2 million also as a result of the increase in the Federal Government's estimate of sales tax entitlements.

GASOLINE TAX ($2.1 million increase)

The increase in Gasoline Tax revenue of $2.1 million from $99.9 million for the fiscal year ended March 31, 1984 to $102.0 million for the fiscal year ended March 31, 1985 is mainly attributable to an increase in consumption of 1.8% for clear gasoline and 4.9% for aviation fuel.

MINING TAX ($14.4 million decrease)

The decrease in Mining Tax revenue of $14.4 million from $23.6 million for the fiscal year ended March 31, 1984 to $9.2 million for the fiscal year ended March 31, 1985 is mainly attributable to the receipt in 1983/84 of $24.2 million as a result of significant revisions which were reported on amended tax returns. Partially offsetting this decrease was an increase of $8.1 million which is attributable to an increase in taxable profits reported by mining companies.

MINING ROYALTY TAX ($10.0 million decrease)

The decrease of $10.0 million in Mining Royalty Tax revenue for the fiscal year ended March 31, 1985 is attributable to the receipt in 1983/84 of $10.0 million for an audit assessment pertaining to the Metallic Minerals Act for prior years. All audit assessments are now finalized and no further revenue will be received under the Metallic Minerals Act which was suspended in July, 1979.

INDIVIDUAL INCOME TAX ($9.2 million decrease)

The decrease in Individual Income Tax revenue of $9.2 million from $596.1 million for the fiscal year ended March 31, 184 to $586.9 million for the fiscal year ended March 31, 1985 is mainly attributable to revisions to the federal estimate of the provinces entitlements based on updated tax collection data. These revisions resulted in a net increase in negative prior year adustments of $12.4 million: a $17.8 million negative adjustment was applied in 1984/85 as compared to a $5.4 million negative adjustment applied in 1983/84. The decrease was partially offset by an increase of $2.5 million in current year entitlements.

The 1984/85 revenue is net after transferring Provincial-Municipal Tax Sharing payments of $23.2 million.

The actual revenue of $586.9 million was $95.8 million less than the Estimate mainly due to the revised Federal estimates of the provinces entitlements based on updated national basic federal tax collections and the net negative prior year adjustment of $12.4 million.

NOTE 2: The total of actual expenditure in the Department of Culture, Heritage and Recreation exceeded the authorized amount by $69,974 as the result of a shortfall in recoveries in the Queen's Printer appropriation. This appropriation has the authority to incur expenditures in anticipation of recoveries under the Appropriation Act, 1984. In 1984/85 the Queen's Printer processed expenditures in excess of recoveries from client departments in the amount of $128,043, as described on page 4-32 of this publication.

EXPLANATORY COMMENTS REGARDING EXPENDITURE INCREASES (DECREASES)

As shown on the
Statement of Expenditure
for the year ended March 31, 1985

The total expenditure of $3,407.2 million for the year ended March 31, 1985 has increased from the previous fiscal year's total of $3,226.1 million by $181.1 million.

The largest increase of $71.1 million in the Department of Health is mainly attributable to an increase in payments of $64.0 million to the Manitoba Health Services Commission.

The next largest increase, $43.3 million, occurred in the Department of Education and is primarily due to an increase of $26.5 million in Financial Support—Public Schools.

Although general cost increases account for a substantial portion of the total increase, certain major items in departmental expenditures are commented on in the following paragraphs:

AGRICULTURE ($11.7 million increase)

The increase in departmental expenditure is mainly attributable to a $7.5 million increase in spending by the Manitoba Agricultural Credit Corporation (M.A.C.C.) which is primarily due to the establishment in 1984/85 of the Interest Rate Reduction Program. This program provided a one-time write-down of all loans under the M.A.C.C. regular loan program to 8% for the fiscal year ending March 31, 1985 which resulted in a $4.7 million increase in M.A.C.C. expenditures.

Other significant increases include $2.0 million for the Federal-Provincial Prairie Livestock Drought Assistance Agreement which was introduced during the 1984/85 fiscal year to assist Manitoba livestock producers and $1.0 million in the Income Insurance Fund which is mainly due to an increase in expenditures for the Hog Stabilization Program.

CIVIL SERVICE ($3.9 million increase)

The largest increase in departmental expenditure was $3.7 million for costs pertaining to employee benefits which are required by legislation or agreement. Major increases in Benefit Plan costs were as follows: Civil Service Superannuation Plan — $1.4 million, Workers' Compensation Board — $0.8 million, Unemployment Insurance Plan — $0.8 million, Canada Pension Plan — $0.3 million.

COMMUNITY SERVICES AND CORRECTIONS ($8.7 million increase)

The increase in departmental expenditure is mainly attributable to: increased spending of $3.1 million in Day Care Grants and Subsidies necessary to meet the licensing standards proclaimed October, 1983 in the Community Child Day Care Standards Act as well as to provide for a 6% increase in fees and grants paid to day care centres and an increase in the number of subsidized families; increased spending of $2.7 million in Community Social Services programming, which is mainly the result of an increase in service to mentally retarded and disabled persons; and increased spending of $1.1 million in the Child and Family Support program mainly as a result of the regionalization of Child and Family Service Agencies which was initiated in 1984/85 and to an increased level of funding to external agencies.

EDUCATION ($43.3 million increase)

The increase in departmental expenditure is mainly attributable to: a $26.5 million increase in the level of financial support provided to school divisions; a $4.4 million increase in the level of funding provided to the Universities Grants Commission; and a $6.6 million increase in capital expenditures for training facilities and equipment under the Skills Growth Fund.

EMPLOYMENT SERVICES AND ECONOMIC SECURITY ($20.5 million increase)

The increase in departmental expenditure is mainly attributable to an increase of $10.7 million in Social Allowance payments which reflects a $5.9 million or 6.1% increase in the level of support and a $4.8 million or 4.7% increase in caseload. Another significant factor was an increase of $8.5 million for Municipal Assistance due to a $4.4 million or 16% increase in the level of support and a $4.1 million or 14.5% increase in caseload.

ENVIRONMENT AND WORKPLACE SAFETY AND HEALTH ($3.6 million decrease)

The decrease in departmental expenditure is mainly due to the payment of a one time subsidy grant of $4.0 million to the Workers' Compensation Board in the 1983/84 fiscal year.

FINANCE ($6.8 million decrease)

The decrease in departmental spending is mainly attributable to a net decrease of $15.3 million in Public Debt expenditure. The major factors contributing to the decrease were a net increase in earnings of $38.2 million from the cash management program and the Provincial Sinking Fund, a reduction of $23.4 million in foreign exchange costs on maturity of provincial securities, an increase of $11.6 million in interest recoveries from government agencies and crown corporations and $11.1 million received on Manitoba Properties Inc. notes. These decreases to Public Debt costs were partially offset by an increase of $69.4 million in net interest costs on long term government financing.

Expenditures related to Hydro Rates Stabilization decreased by $4.4 million as a result of a $7.5 million reduction of foreign exchange costs on maturity of debt obligations related to Manitoba Hydro offset by a net increase of $3.1 million in interest payments on foreign currency debt of Manitoba Hydro.

An increase of $11.0 million in Tax Credit Payments is mainly attributable to increased Cost of Living Tax Credits of $5.4 million, increased Property Tax Credits of $2.9 million, increased Resident Home Owner Tax Assistance of $1.2 million and increased Pensioner School Tax Assistance of $1.2 million in the homeowners component of the program.

GOVERNMENT SERVICES ($18.0 million increase)

The increase in departmental expenditure is mainly attributable to a $24.9 million increase in the costs for leased accommodations. Manitoba Properties Inc. (M.P.I.) was established in 1984/85 and effective August, 1984, the Department commenced paying rent for the space occupied by government departments in the provincial buildings transferred to M.P.I. which resulted in an increase of $23.5 million. Increased costs of utlities and leases held with other agencies resulted in an additional increase of $1.4 million.

The increase was partially offset by: a $4.6 million increase in recoveries by the Central Vehicle Branch which is mainly due to the inclusion of depreciation in fleet vehicle rental rates for the 1984/85 fiscal year; and a net decrease of $3.8 million in expenditures related to capital assets which is mainly due to the completion in 1984/85 of projects that incurred major construction costs in 1983/84.

HEALTH ($71.1 million increase)

The increase in departmental expenditure is mainly the result of increased payments of $64.0 million to the Manitoba Health Services Commission. The increase in expenditures by the Commission is mainly attributable to: increased hospital costs largely due to negotiated salary contracts and general cost increases for supplies and operating expenses of $36.6 million and to increased operating costs for new and renovated facilities of $6.4 million; a net increase in operating costs of $7.8 million in the Personal Care Home Program due to negotiated salary contracts, general cost increases and new and renovated facilities; increased volume and fee-for-service increases of $9.2 million in the Medical Program; and increased volume and cost of drugs under the Phamacare Program of $4.0 million.

HIGHWAYS AND TRANSPORTATION
($6.6 million increase)

The increase in departmental expenditures is mainly attributable to a net increase of $4.2 million in expenditures related to the Maintenance of Highways and Airports. Maintenance program costs increased by $4.9 million and Mechanical Division costs increased by $1.1 million mainly as a result of abnormal winter conditions. These increases were partially offset by an increase in recoveries of $2.5 million to the Mechanical Division due to the increase utilization of equipment, particularly for winter maintenance. The purchase of new facilities to accommodate the relocation of the Mechanical Services Equipment Branch resulted in an additional increase of $2.1 million.

HOUSING ($2.1 million increase)

The increase is mainly due to a $2.0 million increase in transfer payments to the Manitoba Housing and Renewal Corporation. This increase is a direct result of a change in accounting policy in 1984/85 when the department assumed full responsibility for MHRC programming and reported expenditure and revenue for these programs on a gross basis. As a result both expenditure and revenue were increased by $2.0 million. In the 1983/84 fiscal year revenues were collected by the corporation, and the transfer payments from the department were made on a net basis.

EXPLANATORY COMMENTS REGARDING EXPENDITURE OBJECT CODE INCREASES (DECREASES)

For the year ended March 31, 1985

NOTE 1: PERSONNEL SERVICES
($18.3 million increase)

The increased costs of $18.3 million in this category were largely attributed to the following:

a) $4.7 million was coded to this category rather than to Grants/Transfer payments because the Department of Housing assumed responsibility for payroll costs previously paid to the Manitoba Housing and Renewal Corporation.

b) An increase of $3.7 million occurred in employee benefits required by legislation or agreement as follows: Civil Service Superannuation Plan $1.4 million, Workers' Compensation Board $0.8 million, Unemployment Insurance Plan $0.8 million and Canada Pension Plan $0.3 million.

c) Increased activity in the Department of Highways particularly in Maintenance and Construction Program costs, resulted in an increase of $4.2 million. Increased costs of $2.0 million occurred in the Home Care Assistance Program operated by the Department of Health.

The overall increase in this category was much smaller than in the previous year because the across the board percentage salary increase for government employees during this fiscal year was significantly less than what was provided for in 1983/84.

NOTE 2: GRANTS/TRANSFER PAYMENTS
($85.4 million increase)

Significant increases or decreases in the amount of grants or transfer payments under certain programs occurred in the following Departments:

a) **HEALTH ($65.5 million increase)**

The increase in expenditure reflects increased payments of $64.0 million to the Manitoba Health Services Commission. The cost increase in the Commission is mainly attributable to: increased hospital costs attributed to negotiated salary contracts and general cost increases for supplies and operating expenses of $36.6 million and to increased operating costs for new and renovated facilities of $6.4 million; a net increase in operating costs of $7.8 million in the Personal Care Home Program due to negotiated salary contracts, general cost increases and new and renovated facilities; increased volume and fee-for-service payments of $9.2 million in the Medical Program; and increased volume and cost of drugs under the Pharmacare Program of $4.0 million.

b) **EDUCATION ($37.7 million increase)**

The increase in expenditure is mainly attributable to a $26.5 million increase in the level of financial support provided to school divisions and a $4.4 million increase in the level of funding provided to the Universities Grants Commission.

c) **FINANCE ($11.0 million increase)**

The increase of $11.0 million in Tax Credit Payments is mainly attributable to increased Cost of Living Tax Credits of $5.4 million, increased Property Tax Credits of $2.9 million, increased Resident Home Owner Tax Assistance of $1.2 million and increased Pensioner School Tax Assistance of $1.2 million in the homeowners component of the program.

d) **AGRICULTURE ($7.6 million increase)**

The increase in expenditure was mainly attributable to a $7.5 million increase in spending by the Manitoba Agricultural Credit Corporation (M.A.C.C.) which was primarily due to the establishment, in 1984/85, of the Interest Rate Reduction Program. This program provided a one-time write-down of all loans under the M.A.C.C. regular loan program to 8% for the fiscal year ending March 31, 1985, which resulted in a $4.7 million increase in M.A.C.C. expenditures.

Other significant increases include $2.0 million for the Federal-Provincial Prairie Livestock Drought Assistance Agreement which was introduced during the 1984/85 fiscal year to assist Manitoba livestock producers and $1.0 million in the Income Insurance Fund which is mainly due to an increase in expenditures for the Hog Stabilization Program.

e) **URBAN AFFAIRS ($9.8 million decrease)**

The major decrease was due to a $9.0 million decrease in operating grants to the City of Winnipeg.

f) **EMPLOYMENT SERVICES AND ECONOMIC SECURITY ($10.3 million decrease)**

The decrease in this category was primarily due to a reduction in expenditure in the following: Career Start Program $3.0 million, Employment Action Program $3.5 million and Need Program $3.8 million.

g) **HOUSING ($7.1 million decrease)**

The decrease in this category resulted from the Department of Housing assuming full responsibility for Manitoba Housing and Renewal Corporation programs effective April 1, 1984. Consequently, expenditures of the Corporation were coded to appropriate object codes instead of Grants/Transfer Payments.

h) **NORTHERN AFFAIRS ($3.4 million decrease)**

A decrease of $1.5 million in the Northern Flood Agreement was due to the payment of the provincial portion of capital and operating costs of the Cross Lake Arena in the 1983/84 fiscal year. There was also a $2.7 million reduction in the Northern Employment Program.

i) **ENVIRONMENT AND WORKPLACE SAFETY AND HEALTH ($4.0 million decrease)**

The decrease in expenditure is primarily due to the payment of a one-time subsidy grant of $4.0 million to the Workers' Compensation Board in the 1983/84 fiscal year.

NOTE 3: TRANSPORTATION ($8.1 million decrease)

The decrease in expenditure in this category was mainly attributable to increased recoveries of $2.8 million in the Mechanical Division of the Department of Highways as well as a $4.6 million increase in recoveries by the Central Vehicle Branch in the Department of Government Services. The latter was the result of the inclusion of depreciation in fleet vehicle rental rates effective in the 1984/85 fiscal year.

NOTE 4: COMMUNICATION ($1.3 million increase)

The increased costs in this category were attributed to an increase in telephone rates allowed by the Manitoba Public Utilities Board in July of 1984. This rate increase caused a marginal increase in expenditure in this category in numerous departments of the Government.

NOTE 5: SUPPLIES AND SERVICES ($64.8 million increase)

The increase in this category is mainly due to the following:

a) The Department of Government Services incurred a $24.9 million increase in the costs for leased accommodations. Effective August, 1984, the Department commenced paying rent for the space occupied by government departments in certain provincial buildings transferred to Manitoba Properties Inc. under a sale and lease-back arrangement resulting in an increase of $23.5 million. Increased costs of utilities and leases held with other agencies resulted in an additional increase of $1.4 million.

b) The increase in the Department of Highways and Transportation was due to increased activity in road construction and upgrading ($5.3 million) and maintenance programs ($8.1 million).

c) The increase in the Department of Attorney-General of $1.2 million directly relates to increased Law Enforcement expenditures billed by the Government of Canada for R.C.M.P. costs.

NOTE 6: PUBLIC DEBT ($18.5 million decrease)

The decrease of $18.5 million in this category occurred mainly in the Department of Finance. This decrease in Department of Finance spending was mainly attributable to a net decrease of $15.3 million in Public Debt expenditure. The major factors contributing to the decrease were a net increase in earnings of $38.2 million from the cash management program and the Provincial Sinking Fund, a reduction of $23.4 million in foreign exchange costs on maturity of provincial securities, an increase of $11.6 million in interest recoveries from government agencies and crown corporations and $11.1 million received on Manitoba Properties Inc. notes. These decreases to Public Debt costs were partially offset by an increase of $69.4 million in net interest costs on long term government financing.

Expenditures related to Hydro Rates Stabilization decreased by $4.4 million as a result of a $7.5 million reduction of foreign exchange costs on maturity of debt obligations related to Manitoba Hydro offset by a net increase of $3.1 million in interest payments on foreign currency debt of Manitoba Hydro.

NOTE 7: CAPITAL ($10.6 million increase)

The increase of $10.6 million in this category was mainly the result of the following:

a) **GOVERNMENT SERVICES ($8.3 million increase)**

This increase is mainly due to increased spending on the North Portage Redevelopment Program ($14.3 million). This large increase was offset somewhat by a decrease in spending on such major projects as New Court House ($2.2 million), Archives Building Renovations ($1.0 million), Robert Fletcher Building Renovations ($.8 million) and Manitoba School for the Deaf Gymnasium ($.7 million). These decreases resulted because the major spending on these projects were made in the previous fiscal year (1983/84).

b) **EDUCATION ($7.7 million increase)**

The increase in this department was due to a $6.6 million increase in capital expenditure for training facilities and equipment under the Skills Growth Fund.

c) **HIGHWAYS ($3.8 million decrease)**

The major portion of the $3.8 million decrease in the Department of Highways and Transportation was primarily due to increased utilization of equipment and related recoveries of $2.5 million.

NOTE 8: OTHER OPERATING ($8.2 million increase)

The increase in this category was mainly attributed to the following:

a) An increase of $1.5 million in the Department of Housing was the result of Manitoba Housing and Renewal Corporation becoming part of Department of Housing. Payments for M.H.R.C. were then coded to specific object codes rather than grants/transfer payments.

b) An increase of $2.2 million in the Department of Highways was attributed to the increased activity in the upgrading and maintenance programs within the Department. Hotel, meal, clothing and miscellaneous expenditures also increased with this increase in activity.

c) The increase of $.8 million in the Department of Finance was due to increased costs in insurance premiums.

d) An increase of $1.7 million in the Department of Natural Resources was mainly attributable to a one-time payment of approximately $.9 million to C.P. Rail for release from all future liability under the 1962 agreement between the Province and C.P. Rail respecting the Emerson Sub-division Bridge over the Red River Floodway.

NOTE 9: SOCIAL ASSISTANCE RELATED ($19.1 million increase)

The increase of $19.1 million in this category occurred mainly in the Department of Employment Services and Economic Security. This increase in the Department's expenditure was mainly attributable to an increase of $10.7 million in Social Allowance payments which reflects a $5.9 million or 6.1% increase in the level of support and a $4.8 million or 4.7% increase in caseload. Another significant factor was an increase of $8.5 million for Municipal Assistance due to a $4.4 million or 16% increase in the level of support and a $4.1 million or 14.5% increase in caseload.

** Additional Authority was provided to various departments for the Canada-Manitoba Northern Development Agreement pursuant to the Appropriation Act, 1984, Section 5, Subsections 2 and 3.

NOTE 1: The Advertising Audit Office, Appropriation II-3 under the Department of Executive Council, processed expenditures in excess of that recovered from Departments totalling ($28,671) as follows:

Total Expended	$3,273,898
Recoveries	2,892,927
	$ 380,971
Less: Authorized	352,300
Net Overexpended	$ 28,671

Pursuant to section 6 of the Appropriation Act 1984, these expenditures were made in anticipation of recoveries in the 1985/86 fiscal year.

NOTE 2: The Queen's Printer appropriation XIV-3 under the Department of Culture, Heritage and Recreation processed expenditures in excess of that recovered from Departments totalling ($128,043) as follows:

Net overexpended	$ 128,043

Pursuant to section 6 of "The Appropriation Act, 1984", these expenditures were made in anticipation of the amounts being recovered from client departments. The overexpenditure has only partially resulted from unpaid accounts that were not collected from Departments at March 31, 1985 which amounted to $21,541. The balance is attributable to anticipated transactions with client departments that did not materialize.

In addition to the above noted overexpenditure, the Queen's Printer incurred $402,257 in late accounts payments during the 1985/86 fiscal year.

NOTE 3: The Economic Security appropriation XXXIV-2 under the Department of Employment Services and Economic Security incurred late accounts of $4,089,575 in the 1985/86 fiscal year which exceeded the amount lapsed in the appropriation as at March 31, 1985 by $3,950,519. Although this amount was paid from an appropriation for similar purposes in the subsequent fiscal year, as allowed under section 38(3) of the Financial Administration Act, this amount represents an over-commitment of the funds authorized for this purpose in the 1984/85 appropriation.
